

ASK YOUR PHARMACIST

Our pharmacists are happy to speak with you before you get a new prescription. Please make sure to ask them:

- 1 What is the name of my medicine and what does it do?
- 2 How and when do I take it, for how long, and what do I do if I miss a dose?
- 3 What are possible side effects and what should I do if they occur?
- 4 Will the new medicine work safely with other medicines or supplements I am taking?
- 5 What foods, drinks, or activities should I avoid while taking the medicine?

California law requires a pharmacist to speak with you every time you get a new prescription. You may waive the required consultation at your discretion.

You have the right to ask for and receive from any pharmacy prescription drug labels in 12-point font.

Interpreter services are available to you upon request at no cost.

*This pharmacy must provide any medicine or device legally prescribed for you, unless:

- It is not covered by your insurance;
 - You are unable to pay the cost of a copayment;
 - The pharmacist determines whether doing so would be against the law or potentially harmful to health.
- If your medicine or device is not immediately available, the pharmacy will work with you to help you get your medicine or device in a timely manner.
